

Hi there!

This is my Picture profile for the Sony A7III/A7RIII that I always use.  
The Profile has a wider dynamic range, with soft highlight roll off and improved color.

**Pros:**

- Better skin tones
- Deeper Reds
- Highlights roll off
- Dynamic Range increase
- Better results on mixed light
- Optimal for Color Grading (Professional Use)

The Picture Profiles are located in the Main Menu on page 12/14. You can dial the Settings in every Picture Profile slot you want.

**Settings:**
